

Visitation Restrictions Still in Place as of Sept. 10, 2020

During a press conference this morning, Governor John Bel Edwards announced that Louisiana will move into Phase 3 of reopening on Friday, September 11. The announcement comes one day before the executive order implementing Phase 2 expires.

Gov. Edwards did not provide many specifics about what his new order would allow but did say that the statewide mask mandate would remain in place through Phase 3. He was quick to clarify that Phase 3 is not a lifting of all COVID-19 prevention restrictions. Gov. Edwards is expected to provide more details regarding what Phase 3 includes during a conference scheduled for September 11, at 2 p.m.

At this time, LNHA has not received any information from the Louisiana Department of Health (LDH) regarding changes to the visitation restrictions in nursing facilities. If any changes occur, LNHA will notify all nursing facilities of the changes via email.
